CONFERENCE

Conference Programme

The **ANR-DFG project CELTIC GOLD** (2017-2020), based in Toulouse and Mannheim, invites to its concluding conference at Mainz. We want to discuss aspects on archaeometry and technology of La Tène gold and its setting.

As it has been the aim of our project, we intend to bring together different perspectives and approaches on La Tène gold objects encompassing archaeometry, technology, as well as art, communication and social structures from the 5th century BC to the 1st century AD.

In addition, we would also like to link up with the neighbouring regions and periods in order to better understand the connections, influences and contact networks throughout Europe.

The **ANR-DFG project CELTIC GOLD**, coordinated by Barbara Armbruster (Toulouse) and Roland Schwab (Mannheim), is a joint research action with the members Marilou Nordez, Pierre-Yves Milcent (Toulouse), Sebastian Fürst, Nicole Lockhoff (Mannheim), Susanne Sievers (Frankfurt), Maryse Blet-Lemarquand, Sylvia Nieto-Pelletier (Orleans), Martin Schönfelder (Mainz), Laurent Olivier (Saint-Germain-en-Laye) and many partners.

Conference Programme

Thursday, May 12th 2022

12.00 Registration

13.45 Welcoming addresses

Session Craft – Chair: R. Schwab

14.00

B. Armbruster / M. Blet-Lemarquand / N. Lockhoff / R. Schwab
The art of the Celtic goldsmith
